Dear Applicant:

The Department of Ecology received an application from you for appropriation of public surface waters, dated between March 15, 1988 and June 30, 1989. As you were informed at the time your application was submitted, the Department was prohibited from issuing new permanent water right permits to appropriate surface water under a temporary moratorium. This moratorium was to be in effect either until June 30, 1989, or until the legislature acted on the recommendations of the Joint Select Committee on Water Resource Policy, whichever came first. At this point, no legislation has been enacted into law which affects these water right applications. The moratorium expired on midnight June 30, 1989. Processing of water rights under normal department procedures will resume after that date.

Although your request for a temporary permit during the moratorium was not approved, your application has been held with its original priority date (the date of original receipt in this office). Now that the moratorium is over, (after June 30, 1989), the Department will proceed with processing your application. We will be in contact with you regarding the procedures involved and the next steps to be taken.

If you have any questions, please contact me at (206) 753-2977.

Sincerely,

Gary E. Hanson
Water Resources Supervisor
